Education

Indian Institute of Information Technology Kottayam

November 2022 – May 2026

Bachelor of Technology in Computer Science and Engineering

Experience

Klystron Global

March 2026-Present

Junior Software Engineer-AI

Trivandrum

- Developed and maintained enterprise-grade AI/GenAI solutions for OCR, intelligent document processing, and automated data extraction using Gemini models, Vertex AI, FastAPI, Flask, and GCP services.
- Built and optimized multi-tenant AI backoffice workflows integrating OCR pipelines, LLM-based extraction, validation, and analytics, improving processing efficiency and reducing manual verification effort.
- Worked on production deployment and cloud infrastructure using Docker, Cloud Run, Artifact Registry, Firestore, Redis, and CI/CD pipelines, while implementing secure API management, monitoring, and scalable backend architectures on GCP.

Projects

Next-Gen Governance- AI Complaint Management System | *LLM, React, CSS, Python, JS*

🐙 [Github](#)

- * Designed and deployed an LLM-powered complaint management system for urban and rural governance, enabling intelligent issue classification and prioritization through fine-tuned LLaMA 3.1, custom LLMs, and BERT with 95.23% accuracy.
- * Accelerated model training 4× using CUDA, exposed inference via REST APIs with modular SOLID architecture, and ensured reliability through unit/integration testing, logging, and documented reusable AI workflows.

Multi Lingual Audio Translation using LLMs | *Streamlit, Data Pre-Processing, Python, NLP*

🐙 [Github](#)

- * Built and deployed a real-time multilingual audio translation system using LLaMA 3.1, supporting 15+ languages/dialects with BLEU 82.63 and COMET 0.81, enabling accurate cross-lingual communication.
- * Integrated speech recognition, sentiment analysis, and text generation pipelines, fine-tuned LLMs on diverse corpora, and delivered a Streamlit-based interactive demo with 1.5s average translation latency.

Flood Emergency Information Knowledge Graph | *LLMs, Neo4j, Python, NLP*

🐙 [Github](#)

- * Designed and built a domain-specific flood emergency knowledge graph by transforming large-scale unstructured data (news, reports, social media) into structured knowledge using ontology-driven information extraction.
- * Developed a flood-specific ontology and constructed a Neo4j graph enabling LLM-based automated extraction via LoRA fine-tuning to support intelligent flood analytics and Q&A systems.

Campus-Concern | *React, Node.js, Express.js, MongoDB, Vite, Axios*

🐙 [Github](#)

- * Developed a scalable full-stack complaint management system with role-based workflows (Admin, Technician, Verifier, User), enabling secure complaint registration, tracking, and resolution across the platform.
- * Implemented secure authentication, optimized MongoDB-backed APIs, and a responsive React + Vite frontend, reducing response latency by 30% and delivering a fast, device-friendly user experience.

Technical Skills

Languages : C,C++,Java,Python,SQL

MERN Stack :Node.js, Express.js, ReactJS, RESTful APIs, Microservices,MongoDB, NoSQL, Schema Design, Query Optimization, MySQL, FastAPI, HTML, CSS, JavaScript,

AI/ML Frameworks :PyTorch,NLP, Transformers, TensorFlow,Scikit-learn, OpenCV, CUDA

LLM & NLP:Generative AI (LLMs, Prompt Engineering, Model Fine-tuning) LLaMA, BERT, Text Classification, Sentiment Analysis,RAG,Agentic AI, LangChain

Deployment:Streamlit, Docker,FastAPI, RESTful APIs,API Integration

DevOps CloudTools :Linux, Git, GitHub Actions (CI/CD), WebSockets, AWS, GCP,Vertex AI, Azure

ACHIEVEMENTS

- * Led a team to qualify for the Smart India Hackathon (SIH) at the college level, showcasing leadership, teamwork, and problem-solving skills.
- * Professional Certificate in Data Science And Machine Learning ([Link](#))
- * Delivered 4 plus full-stack AI/ML projects independently, showcasing innovation, end-to-end ownership, and scalable architecture.
- * Solved over 350 plus coding questions across various platforms, strengthening programming proficiency, analytical thinking, time management, and communication skills.
